

To Whom It May Concern,

In regard to the recent LPFM campaign, I have a few comments. I listen to K-LOVE everyday and gain the energy and inspiation to attack the day rather than just float through the day. It enables me to be a more productive and cordial citizen. In a time where GOD is being removed from our society, I surely would not want to be responsible for HIS removal from FM radio due to someone's opinion that stations such as K-LOVE on FM translators have little value in national or regional services. In my community daily, as I drive, I see vehicles displaying K-LOVE bumper stickers. While commuting, I receive local and national news. (to me that is a great service for an FM translator to provide to the community) The loss of K-LOVE and similar stations, while immeasurable, would no doubt be a negative one. Payment for denying the public access to our LORD and SAVIOR, JESUS CHRIST, and HIS praises is one no man or women will be able to bear.

May GOD'S peace guide you  
Sincerely,

Don McCall
